## **ABSTRACT**

Described are novel equilenin derivatives of general formula I

$$R_2$$
  $R_5$   $CH_2$   $R_4$   $R_4$   $R_4$   $R_3$   $R_1$   $R_2$   $R_3$   $R_4$   $R_4$   $R_4$   $R_5$   $R_5$   $R_5$   $R_5$   $R_4$   $R_4$   $R_4$   $R_4$   $R_5$   $R_5$ 

methods for producing the same and medicaments containing these compounds.

The new compounds have antioxidative activity and are usable for geroprophylaxis in women and men.
